

Notice: Changes coming to Aetna's Prescription Drug Coverage

As of January 1, 2020, Aetna will have a new pharmacy plan and list of covered drugs, known as a "formulary" or "standard formulary." You may see some coverage changes to your benefit plan with this new formulary. While the new formulary is not yet final, we wanted to reach out and alert members that anyone impacted by this change will receive a notice from Aetna in the coming weeks. The notice will include contact information and alternatives that are available to affected members in 2020.

Further communications on the formulary changes are forthcoming.

Thank you.
