

Bowling Green Municipal Utilities "Green Pricing" Program

100% Renewable Energy Product

- EcoSmart Choice® is a 100% renewable energy product, available only to customers of participating AMP member communities
- Program is open to residential, commercial and industrial customers.
- Renewable energy certificates (RECs) from wind, solar, hydroelectric, biomass or landfill gas projects will be purchased and retired to support the EcoSmart Choice® program.

Benefits

- By participating in the EcoSmart Choice® program, customers help stimulate the demand for new renewable energy facilities, thus reducing their carbon footprint and providing for a cleaner, healthier, and safe energy supply.
- An average customer participating in the program can offset 12,600 pounds of CO₂ emissions each year—the equivalent of not driving your car 15,159 miles.

Availability

- The EcoSmart Choice® program is available immediately.
- Customers may opt out at any time with no penalty.

Customer Sign-up Options

- Return this enrollment slip to Bowling Green Municipal Utilities Business Office, 304 North Church Street Bowling Green, OH 43402.

ACCT #: _____

PARTICIPATION % (100, 75, 50, 25): _____

EcoSmart Choice® pricing and participation level options will be confirmed with Bowling Green Municipal Utilities prior to commencement of this service. You will not have electricity from a specific generation facility delivered directly to your home or business. Your purchase causes renewable energy equal to your electricity purchases to be delivered to regional power grids.

Pricing

- EcoSmart Choice® base price is 0.3 cents per kWh. Customers will pay for the cost of the program on their monthly bills, based on usage.
 - All Bowling Green Municipal Utilities residential, commercial and industrial customers are able to offset up to 100% of their electric usage with renewable energy.
 - At the 100% participation level, an average utility customer using 750 kWh each month would pay an additional \$2.25 each month at the 0.3 cents per kWh
 - Utility customers choosing lower levels of participation (25%, 50%, 75%) would see proportionately smaller increases on their bills.
 - Bowling Green Municipal Utilities will confirm your base price and participation level options.
-
