

DID YOU KNOW?

“The **Gulf Fritillary Butterfly** is a pollinator.”

JOIN US FOR THE

Parks for Pollinators BIOBLITZ

In celebration of pollinators, attend this event to create a snapshot of the variety of local wildlife. Work alongside park staff to advance the health of local pollinators, which are essential to our ecosystem. Participants will use an app called iNaturalist to take pictures of plants, insects and animals; see what wildlife is present on this day; and contribute to a scientific inventory of pollinator species.

EVENT RUNS: SEPTEMBER 12 - SEPTEMBER 27

Kick off programs will be held at Wintergarden/St. John's Nature Preserve on Saturday, September 12 for adults & families interested in learning how to use the iNaturalist App. Programs will be held at 10 AM and 1 PM with 10 participants each. Pre-registration is required, as well as masks and adherence to social distancing guidelines. To register go to the Parks and Recreation Department web page on-line at www.bgohio.org or call 419-354-6223. Attendance at a program is not required to participate. For more information on participating at your leisure, please contact Kaleigh Obrock at kobrock@bgohio.org.
